

Product description:

Piston check valve

Body: ASTM A381 F2

Bonnet: ASTM A381 F2

Disc: ASTM A381 F2

Gasket: Graphite

Bolt: ASTM A193 B8

Nut: ASTM A194 8

Spring: X-750

Design standard: API602

Inspection and Test: API 598

Face to face: ASME B16.10

Connection end dimension: HG/T 20615

Titanium valves are widely used in high-performance engines, particularly in racing and aviation applications, where lightweight and high-strength components are essential. Titanium valves offer several advantages over traditional steel valves, including higher strength-to-weight ratios, increased durability, and resistance to corrosion and wear.
