

Product description:

Manufacture and design standard ASME B16.34 □ JB/T 3595

Inspection and testing standard: JB/T 3595 □ MSS SP-61

End type :SW □ BW □ RF

Pressure range: ANSI 150LB ~4500LB

Port size range:3/4"~6"

Body structure: Straight-through and angle types

Leakage level: ANSI B16.104 V and VI seal level

Energy efficiency to ensure the best heat rate

Multi-stage reducing structure circulatory convection

Long service life, save cost.
