

Port size range:3/8"~4"

Pressure rating: 1680LB 2680LB 4500LB

Flow characteristics:

Quick open

Structure: Overall forging Y type ,our product could replace some famous brands valves ,such as Velan, Conval, Edward etc.

Main body material : A105□12Cr1MoV□F22□F91□F92□316L,etc

Applications : Main steam system , high pressure bypass pipeline , reheater system ,boiler steam pipeline quickly hydrophobic system, extraction steam system
