Port size range:3/8"~4"

Pressure rating: 1680LB 2680LB 4500LB

Flow characteristics:

Quick open

Structure: Overall forging Y type ,our product could replace some famous brands valves ,such as Velan, Conval, Edward etc.

 $Main\ body\ material: A105 \verb|| 12Cr1MoV \verb|| F22 \verb|| F91 \verb|| F92 \verb|| 316L, etc$

Applications : Main steam system , high pressure bypass pipeline , reheater system ,boiler steam pipeline quickly hydrophobic system, extraction steam system
