

Product description:

API 602 / ISO15761/ASME B16.34 design standard

Test and inspection: API598

RF end ,OS&Y, Rising Stem

Forged globe valve body: HASTELLOY C276 globe valve

Disc: HASTELLOY C276

Seat : Integral

Cowinns forged globe valve can be designed with high pressure.

The delivery time more short (45days) for small quantity order.

HASTELLOY material in one kind of nickel-based alloy. Main application as bellow:

It contain B,C,G series, application for oil, chemical, seawater pipeline, pulp and paper industry, FDG system, acid gases working environment, acetic acid, sulfuric acid condenser, MDI, No purity phosphoric acid etc.
