

Y type power plant drain valve range:

Diameter 1/2"~4"

Pressure 150LB~2500LB

Flow characteristics

1,Quick opening

Structure

Overall forging Y type

Our drain valve could replace Velan, Conval, Edward and other some world famous brand valves similar products.

Body material: A105 12Cr1MoV F22 F91 F92 316L,etc

Application Steam piping rapid hydrophobic system, Main steam system , extraction system , boiler drain system
