

Product description:

API 602 / ISO15761/ASME B16.34 design standard

FF end, OS&Y, Rising Stem

B381 F2 forged gate valve body, design according to API602 and ASME B16.34.Both the full or standard port design are available.

Integral seat ,wedge material is B381 F2.

Fully guided solid wedge reduces wear on seating surfaces.

Valve bonnet is forged titanium, the dimensions as per API 602 standard.

Positive backset, high quality packing material and improved stuffing box design ensure tighter stem seal.

T-head stem design provides positive disc to stem connection and ensures effective seating operation

Stud and bolt arrangement facilitates packing maintenance

Recessed body-bonnet joint design captures the stainless steel spiral wound gasket ensuring body/bonnet sealing integrity

Rolled-in seat design ensure tight effective seat assembly
