

Product description:

Design standard :API 602

Test and inspection: API598

RTJ end ,OS&Y, Rising Stem

Forged globe valve body: Inconel 625 globe valve

Disc: Inconel 625

Seat : Integral

Cowinns forged globe valve can be designed with high pressure.

Material characters: Inconel 625 material is one kind trade name of a family nickel-chromium based super alloys. It is corrosion-resistant silvery-white, malleable, hard and ductile metal. Nickel based alloys are characterized by ductility, strength, and resistance to corrosion and heat fluids.
