

Valve type: butterfly valve

Port size:14"

Pressure:150LB

Body Material: C95800

Seat material:4A+Graphite

End: Lug

Operation: Hand wheel

Material list:

Body and bonnet: C95800

Seat: INT

Disc: 4A+Graphite

O-ring: NA

Gasket: Graphite+SS316

Bolt&Nut: NA

Stem: F53

Application:seawater

Application of Seawater Butterfly Valve

Seawater Butterfly Valve with Multi-Layer Sealing Structure

Designed for corrosive marine environments, our seawater butterfly valves feature a robust multi-layer sealing structure to ensure long-lasting, leak-tight performance. Ideal for desalination, offshore platforms, and shipbuilding applications.
