

Product description:

Design standard: API609

Test and inspection: API598

Body material: ASTM A351 CF8M

Disc: ASTM A351 CF8M

Gland:CF8M

Principle of operation:

The Cowinns triple off set butterfly valve provides a bi-directional bubble tight shut-off. This geometry ensures that the disc seal contacts the body seat only at the final shut-off position without rubbing or galling, providing a torque generated resilient seal with sufficient "wedging" to ensure a uniform seal contact.

Features and Advantages

- 1.Stem blow out prevention ring
- 2.Replaceable disc seal
- 3.Live loading packing gland
- 4.Metal to metal patented sealing system
- 5.Disc position indication
- 6.Universal mounting
