

Specifications

Portsize :1/2"~4"

Pressurerange: 150LB~4500LB

Flowcharacteristics: quickly open

Structure:overall forging Y type

Availablebody materials: A105□12Cr1MoV□F22□F91□F92□316L,etc

Application: Steampiping rapid hydrophobic system, Main steam system , extraction system , boilerdrain system

CowinnsY type forged steel power plant steam system drain valves can replace Velan,Conval, Edward etc. products.
