

Port size range:3/8"~4"

Pressure rating: 4500LB 2680LB 1680LB

Flow characteristics:

Quick open

Structure: our product could replace some famous brands valves ,such as Velan, Conval, Edward etc.
Overall forging Y type

Main body material : 12Cr1MoV F91 F22 A105 F92 316L,etc

Applications : High pressure bypass pipeline , main steam system , boiler steam pipeline quickly hydrophobic system, reheater system , extraction steam system
