

Product description:

ANSI B16.34 design standard

ANSI B16.5 flange dimension

Test and inspection: API598

RF end ,OS&Y, Rising Stem

Forged globe valve body: ASTM A105

Cowinns forged angle globe valve can be designed with high pressure.

The delivery time more short (45days) for small quantity order.

Features of angle globe valves:

Can be used in high pressure and high temperature pipeline.

BB OS&Y and pressure seal design are on available

Enough intensity and rigidity to valve disc

Valve plug sealing surface according to customers' request to weld with Stellite alloy or other materials
