

Product description:

BS 1868 design standard

Face to face dimensions: by customer

Pressure test: API 598

Temperature: -29 ~ 538°C

Body material: A217 WC6

Disc and seat ring: A182 F11+STL 6

Pressure Seal

Seat ring with stellite overlay and installed with seal weld.

RT (Radiographic Testing) for end weld parts

Prolonged function and more compact valves characterized by light weight, small volume and less maintenance, specifically designed for the high temperature and the high pressure services encountered in nuclear and fossil fuel power plants.
